Time Out Trailers started manufacturing motorcycle trailers in 1974 and Cycle Mate Trailers began in 1976. All these years of experience and product testing has lead to the manufacturing of the safest, most durable trailers available.

Time Out Trailers offers you the biggest selection available with 13 different cargo trailer models and 3 different camping models!

All of our trailers have a powder coated steel frame, an independent torsion suspension system, and are made from only the best quality fiberglass, with coremat reinforcements in all stress areas. Our products were designed to last a lifetime and we have the history to prove it. Experience matters.

Our newest trailer, the XL HD is pictured above.

Dart

With its easy load capability, and exterior fenders providing the stability of wider wheels and less wind drag, the dart has easily become one of our most popular trailers..

Dart: Pictured above with added features of chrome wheels, luggage rack, and trim package.

Dart: Pictured above with added features of custom color matching, chrome wheels, enclosed cooler package, luggage rack, and trim package.

Dart: Pictured above with added features of custom color matching, chrome wheels, enclosed cooler package, and trim package.

Dart: Pictured above with added features of custom color matching, chrome wheels, open cooler package, cooler cover, and trim package.

Specifications:

Trailer	Weight	Tongue Weight	Box Length	Total Length	Towing Height	Width	Cargo Capacity (Cubic Ft.)	Load Capacity
Dart	160 lbs	20 lbs	56"	90"	35"	42"	18	340 lbs

Standard Features: The Dart is available in black or white gel coat or may be custom painted for an additional charge. Standard items on the Dart include a five wire round bike wiring harness, 12" white wheels, tongue stand, interior carpeting, LED side marker lights, LED taillights, and a 1-7/8" ball coupler.

XL 1800, XL 1500 & XL HD

The XL line of trailers is a deeper version of the Dart. The back of these trailer bodies are reshaped from the Dart to accommodate either the respective Gold Wing or Harley Davidson taillights.

This difference also allows 6 more cubic feet of storage capacity. The bodies of these three trailers are all the same, the difference in the models lies solely upon the taillights.

All accessories and options for these models are interchangeable.

XL 1800: Pictured above with added features of custom color matching, luggage rack, aluminum wheels, open cooler package, and trim package.

XL 1800: Pictured above with added features of custom color matching, chrome light bar, chrome wheels, enclosed cooler package, and trim package.

XL 1500: Pictured above with added features of spoiler, aluminum wheels, open cooler package, cooler cover, and trim package.

XL HD: Pictured above with added features of luggage rack, chrome wheels, enclosed cooler package, and trim package.

Specifications:

Trailer	Weight	Tongue Weight	Box Length	Total Length	Towing Height	Width	Cargo Capacity (Cubic Ft.)	Load Capacity
XL Models	210 lbs	20 lbs	56"	90"	37"	42"	24	390 lbs

Standard Features: The XL Models are all available in black or white gel coat or may be custom color painted for an additional charge. Standard items on the XL line include a five wire round bike wiring harness, 12" white wheels, tongue stand, interior carpeting, and a 1-7/8" ball coupler.

Aerodyne & Slipstream

Aerodyne: Pictured above with added features of a luggage rack, chrome wheels, open cooler package, and trim package.

Slipstream: Pictured above with added features of a luggage rack, and trim package.

The Slipstream may become a camper with the purchase of an additional tent and bed platform. Please see our camping brochure for more details.

Specifications:

Trailer	Weight	Tongue Weight	Box Length	Total Length	Towing Height	Width	Cargo Capacity (Cubic Ft.)	Load Capacity
Aerodyne	180 lbs	20 lbs	67"	104"	33"	42"	26	320 lbs
Slipstream	210 lbs	20 lbs	74"	110"	37"	44"	38	490 lbs

Standard Features: The Aerodyne and Slipstream are available in black or white gel coat or may be custom painted for an additional charge. Standard items on the Aerodyne and Slipstream include a five wire round bike wiring harness, 12" white wheels, tongue stand, carpeting on the floor only, LED side marker lights, LED taillights, and a 1-7/8" ball coupler.
